

## LABORATORY ANALYSIS ORDER

Name and address of client <sup>1</sup> :		
Date (and number) of order:		
Number of offer <sup>2</sup> :		
Results receival entity <sup>3</sup> : (Name of the company, name of the person, e-mail, tel./ fax.)		
Reason or target of the analysis:	<input type="checkbox"/> Compliance verification according to European Regulation (UE) No 1169/2011 from 25. October 2011 r. (nutritional value and allergens) <sup>4</sup> <input type="checkbox"/> Compliance verification according to the product specification <sup>4, 5</sup> <input type="checkbox"/> Other (state below): ..... .....	
Language versions of the reports <sup>6</sup> :	<input type="checkbox"/> polish	<input type="checkbox"/> english
The form of the reports <sup>3</sup> :	<input type="checkbox"/> paper version	<input type="checkbox"/> electronic version
<p><b>Liaison conditions</b></p> <p><sup>1</sup> The invoice will be issued on the client address if no other company was mentioned.  <sup>2</sup> The analysis services will be performed according to the methods stated in the offer/agreement. A reference to an offer that includes subcontracted research is tantamount to acceptance of subcontracting in a specified scope.  <sup>3</sup> The analysis report will be sent to the provided e-mail address when no other addresses provided.  <sup>4</sup> The rules for making decisions on compliance / non-compliance with the requirements are available on the laboratory's website  <sup>5</sup> The condition for verification of compliance with the product specification is sending this document to the laboratory.  <sup>6</sup> The English version of Test reports is additionally payable, according to the offer.  <sup>7</sup> The quality of the results depends on sampling procedure too. For that reason it is recommended to mention all relevant informations regarding sample taking procedure (sampling plan, sampling procedure, sample taker, eg. name of the sample and the lot number, date and place as well as storage conditions, etc.). The sample description mentioned by the client will be placed on the test report.  <sup>8</sup> The tested feature should be precisely determined in relation to the offer according to which the test is to be made by entering eg "presence of gluten", "gluten content".  <sup>9</sup> Client's signature is conditionally to get the analysis started.  <sup>10</sup> After sample receipt which is confirmed by the Laboratory via e-mail, there is no way to stop the order and the payment for the analysis has to be made.</p>
